Release: 26.04.2017

Statute on the levy of tuition fees in the Master's Program International Project Management (Building, Real Estate & Infrastructure) – Full time

On the basis of §§ 2 Section 1, 13 Section 1 of the Landeshochschulgebührengesetz (LHGebG) in its effective version, the senate of the Stuttgart University of Applied Sciences has agreed on the following schedule of tuition fees on April 26th 2017.

The Rector of the University approved the statute according to § 2 Section 2 sentence 2 LHGebG (State University Fees Act) on April 26th 2017.

§ 1 Obligation to pay tuition fees

The Stuttgart University of Applied Sciences levies a tuition fee for all students of the non-consecutive Master program International Project Management (Building, Real Estate & Infrastructure) – full time study. The levy of fees, administrative fees, expenses and payments according to §§ 1 section 2, 12, 16, 18 and 19 LHGebG (State University Fees Act) as well as contributions according to the Studentenwerkgesetz or Student Council Law remain unaffected.

§ 2 Fee amount

(1) The tuition fee is levied per semester. According to the Study and Examination Regulations the fees are:

1st semester	3,000 Euro
2nd semester	2,500 Euro
3rd semester	3,000 Euro

An additional fee of € 600,- is levied for any additional semester.

(2) Periods of leave from studies are not subject to tuition fees if the request for leave was made before the start of the lecture period. If a student is informed about the circumstance that gives him the right to a leave of absence not until after the beginning of the lecture time, the fee is reimbursed proportionately.

§ 3 Fee reduction

(1) On application, students can qualify for a fee reduction of € 500 per semester if:

1. they are taking care of a child who has not ended its 14th year of life at the start of the particular semester,
2. their disability affects their studies severely as laid down in § 2 of the German Code of Social Law, Book IX,
3. they are enrolled as foreign students where within the framework of agreements on state, federal or international level or based on university agreements a freedom of levy is guaranteed.

(2) On application, a fee reduction of € 1,000 on the fees defined in § 2 can be granted for the 3rd semester during which the Master thesis is to be written according to the studies and examination regulations if the student is at the same time writing his Master thesis for a Master of Business Administration (MBA) degree at cooperating university. This also applies if the two universities stipulate together a final paper with the two major topics for a Master of Engineering and a Master of Business Administration and evaluate the major topics separately.

Dues and fees levied by cooperating university are not part of this statute.

(3) Applications for reduction must be submitted before start of the lecture period.

§ 4 Due date

The tuition fee is upon notification of tuition fees due to the payment dates specified therein. The fee is due and payable in two installments of 50%. In case a reduction in fees pursuant to § 3 section 2 has been granted, the fee for this semester is to be paid in one amount. The details are set out in the notification of tuition fees.

§ 5 Refund

In the case of an exmatriculation within one month after the beginning of the lecture period, the tuition fee will be refunded. If the course of studies is canceled later in the semester, the full tuition fee must be paid for the semester.

§ 6 Coming into force

This statute shall come into force the day after its public announcement. It shall apply for the first time on students who begin their studies in the summer semester 2018. The fee schedule of 20th of February 2013 ceases to be in force.

Stuttgart, 26.04.2017

Prof. Rainer Franke
University Rector
